

Pollution Incident Response Plan

This Pollution Incident Response Plan has been made publicly available as per Clause 98D of the Protection of the Environment (General) Amendment (Pollution Incident Response Management Plans) Regulation 2012 and the Protection of the Environment Operations Act 2011.

For the purpose of this plan a 'pollution incident' is defined as:

“An occurrence or set of circumstances during or as a consequence of which there is or is likely to be a leak, spill or other escape or deposit of a substance, as a result of which pollution has occurred, is occurring or is likely to occur. It includes an incident or set of circumstances in which a substance has been placed or disposed of on premises, but it does not include an incident or set of circumstances involving only the emission of any noise.” ('Pollution Incident', Dictionary, Protection of the Environment Operations Act 1997)

Notification of Pollution Incidents

In the case of an emergency Cement Australia's NSW sites will contact the Emergency Services immediately on 000.

After Emergency Services have been contacted, or in the case of non-emergency pollution incidents*, Cement Australia's NSW sites will notify the following Authorities as follows:

- **Environment Regulatory Authority (EPA)** 13 15 55
- **Ministry of Health** (02) 9391 9000
- **Public Health Unit** 1300 066 055
- **Safe Work NSW** 13 10 50
- **Fire and Rescue NSW** 000

- **Newcastle City Council** 02 4974 2000 (Newcastle Terminal)
- **Auburn City Council** 02 9735 1222 (Clyde Terminal)
- **City of Sydney Council** 02 9265 9333 (Glebe Island Terminal)
- **Wollongong City Council** 02 4227 7111 (Port Kembla Milling)

*A pollution incident is required to be notified if:

“There is a risk of material harm to the environment which includes actual or potential harm to the health or safety of human beings or to ecosystems that is not trivial, or, actual or potential loss or property damage of an amount, or amounts in aggregate exceeding \$10,000.”
(Clause 1, Section 147, Protection of the Environment Operations Act 1997)

Contacting Neighbours and Surrounding Communities:

For pollution incidents that extend beyond site boundaries and which cause, or threaten to cause, harm to people, property or the environment, Cement Australia's NSW sites will seek the advice of the Emergency Services and Authorities to notify all relevant neighbours by a suitable method appropriate to the situation.

Where a site has been identified in the tables below, Cement Australia has established a point of contact, as per tables below, to enable early warning by phone in the first instance. Regular updates will be communicated by phone, email and/or in person.

The following neighbours have been identified as those most likely to be impacted by a pollution incident for each site:

Clyde (Terminal & PPG)		Port Kembla Milling		Newcastle (Terminal)	
Rail Corporation of NSW	1300 038 500	NSW Ports	02 4225 7935	Newcastle Ports Corporation	02 4929 3890
