STORAGE AND LIMITATIONS

To view all product limitations, storage & handling tips please visit cementaustralia.com.au

Cement Australia Sand & Cement is a carefully proportioned blend of graded sands and cement, designed for use as a general purpose mortar product.

Sand & Cement is used in handyman, landscaping and plumbing applications including:

- ✓ Setting shower bases and toilet pans
- ✓ Joint filling and/or bedding of pavers
- ✓ General bricklaying
- ✓ Patching/repairing concrete walls, brickwork and rendered surfaces
- ✓ Bedding garden edges and rockeries

HOW TO USE

STEP 1 Empty the required amount of Sand & Cement from the bag into a mixing device – either a wheelbarrow, concrete mixer or other non-porous vessel.

STEP 2 Add water gradually and blend thoroughly to achieve a workable mix. Note: excess water weakens the strength of the mortar.

STEP 3 Apply mortar as required to complete the task at hand.

STEP 4 When the mortar is touch dry, finish with either a clean, damp sponge, steel trowel or wooden float.
